

“

Training creates a shared communication and strong bond between you and your dog to ensure you have the perfect dog that you can feel confident to take anywhere with you.

OUR PLANS ARE TAILORED TO YOUR SPECIFIC GOALS & ARE REASONABLY PRICED

Together we will develop a training plan and schedule that meets your lifestyle and achieves results in the fastest time possible for a reasonable price.

DOG MAY GO HOME ON WEEKENDS

We understand that it's hard to be away from your dog for a long period of time and have built our board and train programs to fit your work, family, life needs. We modify each plan as needed and ensure each plan is developed with input from you to be specific to you and your dog.

ENSURING YOUR DOGS TRAINING TRANSFERS TO YOU AND YOUR IMMEDIATE FAMILY

We highly recommend taking your dog home on the weekends to keep you and your family part of the training process. We want to ensure that you're part of your dog's development and that the training fully transfers to you and your family at home. Our experience with this style of board and train is unparalleled for results. You will be able to meet with us twice per week to learn how your dog is progressing and to communicate back with us how your dog is doing at home with you and your family to ensure that the training is applied not only at our facility, but that your dog performs at home as well. Join us for group classes at no charge.*

TRAINING METHODOLOGY

We are primarily praise and reward based incorporating a variety of training philosophies to be balanced in our approach to achieving results. We will encourage and motivate your pup through their new learning objectives, Through consistency and praise we will get desired results. We will use the most positive training tools possible for your pup, however some dogs age and behaviors or the owner's needs will make e-collar training the best fit for your goals. We will partner with you to discuss training tools that will meet your goals. We are always available to answer any questions and determine the best training tools together to meet your dog's needs. Some training packages include our recommended training collars. If a collar is not included, we will offer you to purchase the equipment we use and recommend for your pup on site.
